

## Occupational Safety and Health Team Meeting 9-3-20

### Library

- Door counter showing occupancy at the entrance
- 250 at any given time - 400 seating capacity
- mostly spreading out and wearing a mask, but some congregation and no mask-wearing
- mold in vindicator buckets

### Student Union

- academic classes going well
- opened up more study rooms and Legendes is now open
- clubs and organizations are going to start meeting on a limited basis
- face-covering issues have happened but not a tone
- Voting is coming up and face mask will be required

### Biology

- fewer numbers of students than initially thought
- hallways have not been crowded and nobody is hanging around
- Labs are going on and have been successful

### Police

- everything in the station is going well
- a lot of calls on mask
- preachers on campus is always an issue
- 27 cadets are being sworn into part-time police
- Safe Ride is now Safe Walk - how the program actually started

### Holmes Center

- September 22nd annual blood drive
- the red cross has exemption so we will have the event with a reduced number of stations and pushing appointments
- October 9th and 10th first athletic event - Volleyball
  - lower seats will be rolled in
- Classes are going well with a limited number of students and many classes outside

### Parking and Transportation

- Appalcart has been going well with the lower numbers of students needing to ride to campus - capacity has not been a large problem
- One overcrowding issue on Monday before classes, the event was on social media, a new bus has been added to that route
- Have been delivering meals to quarantine population with Debi
- Testing has been happening in parking decks on Saturdays and has had good numbers with a low percentage of positive results

### Office of General Counsel

- mostly working remotely

### Office of risk management

- mostly working remotely

### UREC

- Limited operations
- isolated areas that are covered with PVC sheeting
- app to reserve spaces including track and pool
- a very limited number of capacities

### Emergency Management

- Meal support was originally Debi and Jason before Parking helped along with food services boxing everything up
- Testing has been well attended even though the lab showed up late students waited
- One incident of students addressing mask-wearing incidents
- Submitting items to FEMA for possible reimbursements
- Octagon issues with elevator access

### Labs

- nothing to report

### Environmental Affairs

- hazardous chemical lab cleanout
- working on x-ray services
- Fire alarm issue in Duncan

### Safety

- repository fit testing program is moving forward this month
- 0 worker comp claims the past month
- Vindicator issue will be looked into
